Subject: Management Web Application Project Proposal

Dear Sir
Thank you for offering me a great opportunity to make a real life project based on our core course that is Web Development with PHP and Framework (WDPF). In this respect, I would like to inform you that I have decided to make a project on Education Management System, which is most importance for every business communities. I have studied about the various aspects of this system and make a proposal accordingly which is enclosed herewith for your kind perusal. So, I think you will finally Approved the project and help to utilize my creativity.

Sincerely
Rainbow Group

Project Overview

Administration and management of a departmental store is an essential part of the overall working and function of a departmental store. Particularly in the case of bigger stores, there will be several products and number of sections. So good and effective use of resources and effective management is necessary to the success and smooth working.

In this project we can manage ;

- Purchase Record
- Purchase Return Record
- Purchase retail
- Sales Record
- Sales Return Record
- Sales retails
- Product Record
- Categories retail
- Dealer Record
